Colour Ways

NATURAL

The GJ017CS is a premium natural jute bag enhanced with a corn starch coating, offering the same practical benefits as traditional PP (polypropylene) lining—added structure, improved shape retention, and a smoother print surface—without the use of plastic. This coating allows the bag to stand upright and maintain its form, making it both functional and visually appealing.

Made entirely from natural jute, the GJ017CS is 100% plastic-free and designed to give your brand an eco-conscious edge.

Ideal for businesses committed to sustainability, this bag is available in one natural colour and features a raw, earthy look that reinforces its environmentally friendly credentials.
